

J6 from JURA  
360° pleasure for all the senses

## J6 Technical overview

### JURA standard features

Variable brewing chamber, from 5 g to 16 g	■
Intelligent Pre-Brew Aroma System (I.P.B.A.S.®)	■
Second, ground coffee	■
Hot water function	■
Height-adjustable coffee spout	■
Energy Save Mode (E.S.M.®)	■
Multi-level Aroma <sup>G3</sup> grinder	■
CLARIS filter cartridge	■
High-performance pump, 15 bar	■
Thermoblock heating system	■
Intelligent preheating	■
Integrated rinsing, cleaning and descaling programme	■
Integrated milk system rinsing and cleaning programme	■
Adjustable water hardness	■
Zero-Energy Switch or power switch	■
Swiss made	■

### Specific advantages

One-Touch function	■
Pulse Extraction Process (P.E.P.®)	■
Intelligent water system (I.W.S.®) with CLARIS Smart filter cartridge	■
TFT colour display	■
Rotary Switch	■
Wireless ready	■
Compatible with the JURA Coffee App	■
Recognition for second, ground coffee	■
Active bean monitoring	■
Monitored drip tray	■
Maintenance status display	■
Integrated storage compartment	■

### Settings and programming options

Programmable amount of water	■
Amount of water adjustable for each preparation	■
Programmable coffee strength	10 levels
Coffee strength adjustable for each preparation	■
Store, copy and personalise products	■
Programmable brewing temperature	3 levels
Programmable hot water temperature	3 levels
Programmable switch-off time	■

### Design and materials

White cup illumination	■
Amber cup illumination	■
Sound design	■

### Also supplied as standard

Container for milk system cleaning	■
------------------------------------	---

### In figures

Height-adjustable coffee spout	65 – 111 mm
Width-adjustable coffee spout	20 – 50 mm
Height-adjustable cappuccino spout	110 – 153 mm
Height-adjustable hot-water spout	90 – 135 mm
Water tank fill volume	2.1 l
Coffee grounds container (servings)	approx. 16
Bean container with aroma preservation cover	250 g
Cable length	approx. 1.1 m
Voltage	230 V ~
Power	1450 W
Energy consumption	11 Wh
Energy consumption in energy-saving mode (E.S.M.®)	6 Wh
Standby power	≤ 0.01W
Weight	10.9 kg
Dimensions (W × H × D)	28.5 × 34.2 × 43.3 cm
Article number/colour	15111 / Brillantsilber 15165 / Piano White

### The benefits at a glance

- Ultimate coffee quality thanks to the Aroma<sup>G3</sup> grinder and Pulse Extraction Process (P.E.P.®)
- The perfect One Touch: 13 specialities at the touch of a button, from the coffee classic to the trendy flat white
- Sublime all-round design with accentuated Rotary Switch in Blue Crystal Design, glass cup grille and chrome-plated coffee spout
- The Intelligent Water System (I.W.S.®) automatically detects the filter while the CLARIS Smart ensures perfect water quality

## J6 from JURA 360° pleasure for all the senses

The J6 is undoubtedly one of the most attractive ways of expressing good taste. The sublime all-round design is in perfect harmony with the refined materials and targeted accents. State-of-the-art technologies ensure that the wide variety of speciality coffees always impress with their quality. The machine is easy to understand and can even be operated via smartphone using Smart Connect, which is available as an option. Maintenance programmes and a TÜV-certified hygiene round off this premium automatic speciality coffee machine.

### Top marks across the board thanks to P.E.P.® and fine foam technology

A number of top innovations ensure that both classics and trend specialities can be created with breathtaking quality: The Aroma<sup>G3</sup> grinder is now twice as fast, yet preserves all the delicious aroma of the coffee beans. The Pulse Extraction Process (P.E.P.®) ensures the optimum extraction time for a short speciality and delivers a taste explosion for the ristretto and espresso. Trend specialities finished with milk and milk foam are brought to perfection thanks to fine foam technology. Gourmets agree and award the J6 top marks for its aroma.

### Self-explanatory operation – even by app on request

A logical structure and easy-to-understand graphics make the modern operating concept absolutely self-explanatory. The TFT display and the Rotary Selection take users straight to what they want. If they so wish, they can also control the J6 via smartphone using the JURA app.\* Thanks to RFID technology, the Intelligent Water System (I.W.S.®) detects the water filter automatically. A customised inlay in the storage compartment allows an interchangeable milk spout and a milk pipe to be stowed away to save space. Both are within easy reach at all times. A separate hot-water spout, the container for milk system cleaning and the integrated maintenance programmes ensure TÜV-certified hygiene at the touch of a button.

### A place for everything

A totally ingenious product concept is highlighted in a love of detail. A prime example of this is the J6's redesigned storage compartment. The easy-to-remove, dishwasher-safe shaped insert provides the ideal space for an interchangeable milk spout and a milk pipe. There, they are ready to hand at any time – stored in a hygienic, tidy and space-saving manner. Perfection in practice!

### 360° pleasure

Awarded a whole host of prestigious international design prizes, the J line from JURA impresses at first sight thanks to its clear, simple and symmetrical lines. In the latest version from this highly successful line, the Rotary Switch with its Blue Crystal design, glass cup grille and chrome-plated coffee spout knowingly accentuate the harmonious all-round design. In the J6, ten years of experience are combined with state-of-the-art technology. The result is an automatic coffee machine offering pleasure for all the senses: with a range of specialities of an intoxicating aroma quality, self-explanatory operation, perfect, TÜV-certified hygiene as well as exceptional design and high-quality materials processed to Swiss standards of precision.

\* The separately available Smart Connect Bluetooth® transmitter / receiver is necessary for this.
